| Tolerance on Length                                      |                                      | Thru 3/4": ±.030" |                            | Over 3/4": ±.050" |                         | Over 1/4" Diameter, All Lengths:<br>±.050" |                      |

Specifications for the 0-40 & 5-20 diameters are independent from the REMINC standard and are listed here for reference purposes only.

| Description                 | Trilobular thread-rolling screw with extra wide spacing between 48° profile threads; twin lead threads with a 1-2 thread point taper.   |   |  |  |  |
|-----------------------------|---|---|--|--|--|
| Applications/<br>Advantages | Thermoplastics, engineering resins and certain thermosets. Sharper thread profile increases holding strength while reducing material displacement.<br>Drive and strip torques are higher, reducing the need for inserts or reinforcing clips. |   |  |  |  |
| Material                    | Steel   | Stainless   |  |  |  |
|                             | AISI 1022 steel   | <i>18-8:</i> 18-8 stainless steel <i>410:</i> 410 austenitic stainless steel  |  |  |  |
| Heat Treatment              | Screws shall be quenched in liquid and then tempered by reheating to 650°F minimum.   | <ul> <li>410 SS: An ideal method of hardening 410 stainless screws is a bright hardening process, which typically involves a vacuum furnace. Another key factor affecting har ness is the chemistry of the fastenermost elements have maximum values but no minimums. This fact can contribute to hardness variance.</li> <li>18-8 is only hardenable by cold-working.</li> </ul> |  |  |  |
| Case Hardness               | Rockwell C45 minimum  | -   |  |  |  |
| Case Depth                  | <i>No. 2 thru 6 diameters:</i> .002007<br><i>No. 8 thru 10 diameters:</i> .004009<br><i>1/4" diameter:</i> .005011  | -   |  |  |  |
| Core Hardness               | Core: Rockwell C28-38 (after tempering)   | <b>18-8:</b> Rockwell B90 - C20 (approx.)<br><b>410:</b> Rockwell C38 - 46 (approx.)  |  |  |  |
| Plating                     | Various finishes with wax coating (see Appendix-A)  | Stainless thread rolling screws are supplied passivated & waxed.  |  |  |  |
